GLOBAL HEALTH DATABANK — ALL THE TOOLS YOU NEED:

Doctor search — on a global scale

Should you need a doctor, simply enter the country and city where you are located. The Global Health DataBank will instantly list the providers within 25 miles/40 kilometres of your location split by area of specialisation e.g. Neurology, Paediatrics, Primary care etc.

The library of doctors worldwide have all met our rigorous selection criteria in terms of their qualifications, experience, the facilities they practice from and their specialist areas of expertise. Once you have located a suitable physician, simply click on their name for their qualifications and experience.

Quality medical facilities — instantly

Quickly and easily search for medical facilities worldwide. Simply select the medical facility you wish to attend, pre-authorise your in-patient treatment with AGB and we will arrange settlement directly with the hospital concerned.

Note: Access restrictions may apply per policy/benefit plan.

City health profiles — to guide you through

Our extensive CityHealth guide provides details of the medical and pharmacy practices, vaccination requirements and emergency care providers of many major metropolitan cities worldwide.

Drug translations — for your peace of mind

Allows you to find the different names used for many prescription drugs in various countries around the world. All you need to do is type in your country of origin, the name of the drug as you know it, and indicate the country in which you want to purchase the medication. You will also find key medical terms and phrases in a variety of languages.
